Tradition – Innovation.

Swiss tradition with a great future

Renggli, founded in 1927, is an established Swiss family enterprise with international orientation in the realm of complete laboratory solutions. As one of the leading European producers and market leader in Switzerland, Renggli designs and implements state-of-the-art laboratories for research, industry, medicine and education. Branch offices in Switzerland, Poland and China, as well as a worldwide presence and innumerable reference installations are evidence that Renggli is a reliable partner covering the entire range of laboratory technology.

We design professional laboratory systems for you

Our laboratory systems are among the very best worldwide. We design them for enterprises and institutions with highest requirements in terms of flexibility, quality and precision. In addition to a wide variety of standardized systems, we also design and produce complex customized systems to meet your individual needs.

Our Core Competences

Counselling Competence

Our laboratory experts are eager to support you in all facets of laboratory technology. They will advise you accurately on all pertinent norms, legal provisions and safety aspects.

Planning and Engineering Competence

Our specialists are at your disposal to carry out the planning of the entire project. They even cover the engineering part, from media supply of the individual work place all the way to interfacing with the building control systems.

System Competences

In addition to being a dependable supplier of laboratory installations and equipment, we are your comprehensive one-stop service for counselling, planning/engineering, production, installation and maintenance/service. This is the key and guarantee for decades of perfect performance of your laboratories.

Selected Happy Customers.
